

# JUST THE TICKET FOR YOUR ELOMA!

LONG SERVICE LIFE. SUSTAINABILITY.  
CONSERVATION OF VALUE.

# autoclean® / autoclean®MT CLEANING SYSTEM

Genuine, fully automatic cleaning with patented Eloma procedure.

Available on the following units: GENIUS<sup>MT\*</sup>, MULTIMAX\* and JOKER\*

\* Optimised! With immediate effect you now save up to 40% water, thanks to the latest software version v5.39.

## YOUR MOST IMPORTANT BENEFITS:

- **Cost-effective!** Save up to 50% per cleaning process compared to conventional systems with tabs or cartridges (not to mention manual cleaning).

Example:

A cleaning process with cleaning level 2 on the GENIUS<sup>MT</sup> 6-11 costs less than 3 EUR\* per procedure.

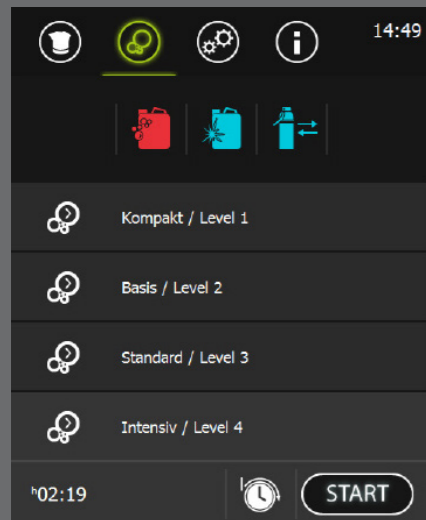

Compare these costs with other suppliers' semi-automatic systems - unbeatable!

- **Reliable!** No under- or over-dosage. No risk of burns from placing tabs / cartridges in the cooking chamber. Exact, automatic spraying of cleaner and rinsing agent. No residues possible as with solid cleaners. No need for checking, re-rinsing or wiping off.

- **Fully automatic!** Just connect the canister, and you're done! If desired your Eloma can signal when the canister is running out. You want to have your cleaning program automated and started? No problem. Just select the automatic start or finish times. It's in your hands.

- **Efficient!** If the soiling is light, autoclean®MT takes less than 15 minutes to restore the cooking chamber to flawless hygiene. No waiting times for the cooking chamber to cool down.

\* Average value for Germany, regional variations possible.

# MULTI-CLEAN - RINSING AGENT AND CLEANER

Perfectly matched to your Eloma with autoclean® / autoclean®MT.

## YOUR MOST IMPORTANT BENEFITS:

- **Simple!** The colour-coded canisters are simply connected to the hoses. The rest works at the touch of a button. No need to screw in cartridges or insert various tabs in baskets or drawers. The highest degree of occupational safety.

- **Ready to use!** Multi-Clean is pre-mixed and can be used immediately. This makes for extremely short cleaning cycles (no dissolving, heating up or similar).

- **Optimum care!** The Eloma cleaner and rinsing agent formula provides protection from corrosion, preserves the stainless steel in the cooking chamber and prevents stressing the door seal.

- **Environmentally friendly!** Both the cleaner and the rinsing agent are biodegradable as per OECD directives.

- **Storable!** Our Multi-Clean cleaners can be stored for 4 years after bottling without quality loss.

## DID YOU KNOW?

- 90% of „rust in the cooking chamber“ cases are caused by the use of third-party cleaners!

- Pumps may become blocked and hoses may become porous if third-party cleaner is used!

# BRITA PURITY STEAM WATER TREATMENT

The leading manufacturer for your best cooking and baking results.

## YOUR MOST IMPORTANT BENEFITS:

- Filter products that have been perfectly matched to Eloma's units and it's sizes
- Scaling and machine downtimes are prevented purposefully
- Fine steam nozzles remain passable for longer
- Baked goods, fish, meat and vegetables turn out excellently:

Substances which affect taste and aroma, e.g. chlorine, are removed

- Unique filter head concept for direct injectors: adjustable in steps from POS 0 to III
- Effective filtration even with water with a low carbonate hardness
- IntelliBypass: constant optimum water quality, even at low water throughput rates
- Water short-cut: uninterrupted operation even when replacing the cartridge
- Simple use thanks to the closure system
- Servicing and repair costs are reduced

# ELOMA SERVICES

Protect your investment - guaranteed!

## YOUR MOST IMPORTANT BENEFITS:

- **Local service!** Eloma has an extensive service network of highly qualified regional partners - short distances guaranteed.
- **2-years warranty!** Register your Eloma and receive an additional second year's parts warranty free of charge. Not enough? Eloma can provide you with warranty extensions for up to 5 years - contact us.
- **All-round care-free package!** You just want to cook? We will be happy to find the right preventative maintenance packages for you and your Eloma.
